W05 Reflection

**Point Total: 100**

***Why is this week's topic important for teamwork? (20 points)***

This week we learned about professionalism. If all members of a group were to exhibit perfect professionalism, they would be able to work virtually perfectly as a group. Professionalism is what all group member should strive for.

***How do plan on contributing to the team, besides completing your tasks? (20 points)***

I plan on contributing to the team this coming week by striving to become more professional, and helping my team members do the same. I'm really looking forward to this coming week, as we'll actually be working in groups!

***How does your experience relate to other classmates' experiences? (20 points)***

I believe that most people have mastered at least one or two ways of being professional. According to one of the articles we read, there are eleven different elements that comprise professionalism as a whole. It seems that there many differences amongst the professional strengths and weaknesses possessed by the members of our class. It'll be interesting to see how we will work together and help one and other become more professional.

***Tell me about what you taught someone? And what did they learn, that they didn't know before? (20 points)***

My wife and I had a good conversation about how we would both define professionalism. Though we had some slightly differing views (as we both work in different industries) most of our beliefs and insights were mutual.

*If this was a religion class, how would you relate this week's topic to the gospel? (20 points)*

I think that the idea of being professional can be likened unto the gospel principle of doing all that we can do, and letting God do the rest. By behaving in a way that is professional, we put our best foot forward and show others what we are capable of. We should not rely solely on our abilities and connections. We should try to behave in a professional and genuine way wherever we go.
